ABOUT ME

As a second-year Computer Engineering student at **Khazar University**, I am passionate about developing technical solutions and contributing to impactful projects. My involvement in various volunteering programs has helped me build strong leadership and collaboration skills. I aim to apply my expertise in programming and system design to real-world challenges while enhancing my personal and professional growth.

PROJECTS

[10/01/2025 – Current]

Web Portfolio

Developed and maintained a personal web portfolio to showcase my skills, projects, and accomplishments. The portfolio highlights my proficiency in web development technologies such as HTML, CSS, JavaScript (in progress)

[2024]

2D Python Game

Developed a 2D game using Python and Pygame, where I applied programming concepts such as object-oriented programming, game logic, and graphics rendering. The game challenges users with interactive elements and showcases my ability to create engaging, functional applications

HOBBIES AND INTERESTS

Art

I am an artist skilled in drawing and painting across various genres, including portrait, abstract, and landscape art. My passion for art has led to numerous awards, including more than 15 accolades for my work in local and international competitions. These awards reflect my dedication, creativity, and mastery in different artistic mediums such as oil, watercolor, and digital painting.
